Coal Mining Company [LIMITED.]

Oapital, - - - £30,000, IN 15,000 SHARES OF £2 EACH.

Incorporated under the British Columb Joint Stock Companies' Act, 1859 which specially limits each Shareholder's Va-bility to the amount of his shares. DIRECTORS:

THOMAS TROUNCE, E-q., Chairman Jat. Dickson, Fsq., M. D. Wm P. Sayward, Esq. C. Hounslow, Esq. J. B. Humermann, Esq. C. Vereydnen, Esq.

WM. P. SAYWARD-TREASURER.
J. S. WILLIS-SEGRETARY. BANKERS-BANK OF BRITISH NORTH AMERIC

This Company has been formed for the purpose of developing and working several extensive and valuable seams of Anthracite Coal lately discovered in Queen Charlotte Island.

At present this is the only mine of pure Anthracite Coal known to exist on the Pacific Coast, and the present that the present of the Pacific Coast, and the present of the Pacific Coast, and the present the discovery is one of great importance and value.

ports the discovery is one of great importance any value.

The Company have had reserved to them by the Government Twenty Thousand Acres for mining purposes, five thousand of which is surved (at present) by lease at the nominal ren' splope annum, with the additional pivilege o purchasing 1000 acres at \$1 per acre for a town The ccal scanis, from three to seven feet i

kets.

The quality of the coul has been fairly tested.

The engineers of several of the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the found dries in the city of Victoria whose reports are an nexed, and declared by them to be equal if not superior to the best Pdnnsylvania Anthractic

superior to the best Frantsylvzina American Coal

The great advantage of the position of the mine
cannot be brought too prominently to the notice
of intending Shareholders, its close proximity to
the coast, together with its superior quality renders it of great value; also an easy access for
ressels of any tonnage, a safe and commodious
harbor perfectly sheltered and land locked with
secure and good anchorage, will enable vesses at
all seasons and weather to load at the Company's
wharf.

all seasons and weather to load at the company, wharf.

There is a large demand for anthrecite coal to supply foundries, steamers, &c., &c., in San Francisco. Portland, Victoria and other ports, all of which has to be shipped from the Eastern States or rom Europe at a great expense, the selling price ranging according to quality from \$16 to \$20 in some markets in others higher; the trade to Panna a and along the Pacific coast will be considered. An extens we trade will also be open with china and Japan. The naval stations of Bugland, United States of America, France and Russia, must necessarily consume a large quantity.

Impurities of the Blood.

The Road to Health and

How many persons and remaining the causes why they are feeble! In most cases the stemach is the segressor. Hollowsy's Fills have long been laned for regulating a disordered stomach, and restoring its healthy digentive tone; they are therefore confidently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Diseases of the Head and Heart.

These formidable diseases are, unfortunately of frequent occurrence; for the most part they eree on gradually, but may be prevented by proper precautions. Holloway's Pils are the surest perservatives against all derangements of the brain and are the speediest concetors of irregular circulation. If they be taken without delay when trighing in the limbs, drowsiness, or giddicess comes on, the effect will be marvelous.

All Disorders affecting the Liver, Stomach

Whenever the stomach, liver, or bowels are dis-ordered by high living, climate, over-indulgence, undue exertion or other causes, these fine regula-ting Pills will soon rectify the evil, and specify bring back energy, strength, and cheerfulness to the frame where previously all was lassitude, gloom, and dejection.

is not their fault, but the fault of the country's

legislation. If other districts have got an

undue number of representatives -- if Victoria

District has got one too many, and Metchosin

has got one too many, that is no argumen

why Cowichan or Comox should be left out

in the cold. In all probability before the

session is over, a redistribution will take

place in the representation, so as to carry out

the idea enunciated several months ago in

these columns, of adding to Victoria's re-

presentation by some such subtraction as the above; when such effort shall have been

made, we expect to find the very parties who

are now crying so lustily for a redistribution,

the most furious declaimers against it; but as the Cowichan and Comox bill passed its

third reading, with all the noise of the Chroniele's penny whistle, without a dissen-

tient voice, so also do we expect every other

measure that is opposed in the same quarter

ERRATIC JOURNALISM. The lines of our morning contemporary seem to have fallen in unpleasant places. No sooner is it out of one dilemma than it is into another. To those who can get over the feeling of contempt with which most people must view its childish animus and want of ordinary discretion or principle, its recent contortions and gyrations must appear amusing. After praising the action of the majority in the House, and abusing the individual members-after telling its readers that these men are scheming politicians ready to plunge the country into hopeless ruin to carry out their own peculiar ends, which in this instance would seem to be the reduction of the expenses of the country-it calls the next day upon His Excellency Governor Kennedy, in a high state of nervous trepidation, not to dissolve the House, because these scheming politicians, in whom the public have no confidence, would all be re-elected! It we had had any doubts about the hapless condition of our contemporary's mind from the foregoing they would be entirely dispelled by last two issues. The public are first told that the Liberal members of the House are determined to carry out some scheme that with ruin the colony; when this fit is over, it appears that the danger is local not general and that only Victoria is to be annihilated. After forming themselves into a "Club" for reducing the expenses of the country and otherwise damaging public interests, the majority of the House are found to have conceived a deep-laid design to seize Victoria bind her hand and foot, and cut her up into small bits for the especia! delight of the ravenous districts. A bill is introduced to give Cowichan and Comox-two of our most important settlements-representation in the House of Assembly. The first reading of the measure passes, but not a word is said about it; the second reading goes through, and still the Chronicle is silent. Not till it goes through Committee - not until Dr. Helmeken, the source of our contemporary's inspiration-its oracle, its guide-not until he speaks does the weak shrill pipe sound its discordant notes. Then we see in a diluted form the speech of the senior member for Metchosin transformed into a "leader" in the columns of the Chronicle,-then we se the Doctor's statistics, which were read in the Assembly, transferred bodily into the article as if they had been the result of exhausting editorial labors; all the fallacies, all the blunders, all the crudities on representation and taxation which Dr. Helmcken adduced in his speech against the bill are rehashed in our contemporary's columns in a more fallacious, more blundering and more crude manner even than the original. We are told that taxation or population should be the basis of representation, which so far as the basis goes no one has ever disputed; but with a knowledge of the principles and practice of representation that is, to say the least, extraordinary, we are assured that the proper way is to give representatives in exact proportion to

the amount of taxation or population. Ac-

cording to this brilliant idea, London, as was

stated in the Assembly, if we went on

the number of inhabitants, would have

seventy members in the House of Com-

mons; and if we went on taxation

its proportion would be infinitely larger.

If our contemporary knew anything at all

about representation, it would be conversant

with the fact, that in no country has a town

or city the same number of representatives

as any given number of separate districts

this, we should like to know what injury the

granting of representation to Cowichan and

Comox is going to do Victoria? Have we

not been told over and over again by our

oracular contemporary that the interest of

Victoria is the interest of the districts-that

the farming communities are depending on

Victoria for a market for their produce, and

that what injures Victoria must necessarily

injure them? If that be the case, and we

have our contemporary's word for it, why

does it now say that the districts are going

with an equal population. But apart from

to swamp Victoria, or, in other words, are going to kill themselves? We are really afraid the editorial memory is weak and the reasoning power not supernaturally vigorous. The fallacies of our contemporary are legion. It starts off with the false basis that the interests of the districts are adverse to the interests of Victoria-contrary, as we have shown, to all its former protestations. It then implies that the interests of all the districts are the same as one, and that Sooke and Comox might shake hands over the destruction of the capital. Having gone this far it is easy to make another false step, and so it gravely assumes that all these districts send men whose interests are bound up in the districts to represent them in the Assembly. This absurdity has been already very promptly exposed in the Evening Post, which showed that out of the eleven members returned at present outside Victoria, every representative but one was a Victorian and had his interests in Victoria. Yet this is the class who are to lay the Vancouver Island capital in ashes! It is bad enough for a journal, because it is in a small and powerless minority to lash itself into impotent rage and declaim against men who are doing their utmost for the public good, but to fall into such a hopeless plight as this -to be caught blundering and floundering in a matter that to the most ordinary intellect is as plain as the letters of the alphabet, is to aggravate the evil of malevolence of heart by weakness of head.

Cowichan and Comox demand represensation. If they or any other districts do not BANKRUPT STOCK!

THE WEATHER - While Dame Nature in her thermal administration in this remote corner of the globe, has issued a decree as nflexible as the laws of the Medes and Persians, that old Sol is to hold uninterrupted sway and illumine these fair Isles with his genial rays for about seven months out of the twelve, it is evident that her hibernal government is subject to no law or order whatever; consequently we have wet winters, mild and dry ones, and severely cold and were it not that the experience of '61-'62 taught the inhabitants to make better been stated by our evening contemporary. provision for such visitations, the effects would have been much more severely felt in town and country. On Tuesday night during the snow storm the thermometer stood at 18 the snow storm the thermometer stood at 18 degrees below-freezing point, and as some indication of the state of the atmosphere three or four pigs shut up in a sty near town were found in the morning frozen quite stiff. On Wednesday night the thermometer stood at 15 below freezing point, and last night we should suppose that it ranged between the two former. The drift snow is said to be as much as seven and eight feet deep in some places in the country. A young lady who rode into town on Wednesday from Saanich waded through some places where her horse rode into town on Wednesday from Saanich waded through some places where her horse sank up to his neck. In town the clearing of the sidewalks has piled up the snow from three to five feet on Whatf and other streets, and the town will be in a nice state when a thaw does set in, of which, however, at present there is but slight prospects. In the meantime the gas pipes are obstructed, vegatables, oystes and other chibles are spoit, the water pipes are frozen and a general cry the water pipes are frozen and a general cry prevails of "Water, water, everywhere, but not a drop to drink!"

The occupant, chancing to be awake, crept softly to the window, and just as the robber's face appeared, pressed against it the cold, smooth muzzle of a revolver, with the injunction, 'You git!'
'You bet!' replied the housebreaker, dropping to the ground and running for his life. -Am. Paper.

A PARADOX - With all the cry of "we have no work to do, and the difficulty of either REUTER'S LATEST TELEGRAMS procuring employment or of getting home, it will scarcely be credited that the greates difficulty has been experienced in procuring hands to take the Glaramara to England; Big Bend, or some other magnetic influence is still at work, and men are really, though they may gramble, not willing to leave the country when the chance offers.

TO THE EDITOR OF THE BRITISH COLONIST TO THE EDITION OF THE ISRITISH COLONIST SIT,—The recent de't ate in the House of Assembly on the Estimates, I confess, has been to me more a matter of surprise than of interest. One may always expect to find in any legislative body a class of men yeleped obstantiates who may be considered useful. legislative body a class of men ycleped ob structives, who may be considered useful just as the brake is necessary to check th Just as the brake is necessary to check the engine on a down grade, except with this difference—the brake is only applied when necessary—but the obstructive is perpetually clogging the wheels of progress. It certainly becomes a matter of painful surprise to see a man laying such high claims to statesmanship as the hon. Speaker of the House advocating the discussion of the initiation of money grants. Does not the hon. Speaker know that this question has been throughly disthat this question has been thoroughly dis-cussed and absolutely settled in every other British North American Colony? How can any sensible man fail to see the errender that righ Executive, nor ha Scotia nor New Brunswick confided to the Executive the duty of initiating the supplies. How can any sensible man fail to see the desirableness of such a rule? or what can appear more unreasonable than to place in the hands of an irresponsible Governor, surrounded by a set of irresponsible officials and advisers of his own creating, the power to exact an uniform reasonable officials and the resource of himself and his coadjutors, allowing the people's representatives the simple right to object to the measures of the Government, without the power to enforce that objection.

But let the Executive Government become But let the Executive Government become responsible to the people, by placing minis-ters in the House, and then the danger ceases, the interests of the Government and that of the people become identified. Statesmen are then influenced and trained to seek the country's best interest. This view of the case, Mr. Editor, seems to me so clear that I cannot refrain from repeating the clear that I cannot refrain from repeating the expression of my surprise that any man having the slightest claim to the qualification of a statesman should attempt to controvert it and more particularly as the principle has become so indisputably settled in the Legislative experience of the British provinces, ignorance of which alone should disjustify any person from surpring to legislative hon-

Holloway's Ointment and Pills.—Jaundice Disordered Liver. A good free flow of bile is absolutely necessary for digestion; when this secretion is interrupted or deprayed, disease immediately sets in, and sallowness or jaundice marks the cause to be in the liver. This important organ, so liable to disorder, can always be regulated by Holloway's Ointment and Pills. The former, rubbed on the right side, over the region of the liver, upon which it exercises the most salutary influence, without harassing the stomach or the bowels—a matter frequently of vital importance—confers on this remedy an advantage over every other form of medicine in the pharmacopoxia: when assisted by the Pills, every disease is speedily subjected and effectually banished

"Holloway's Pills and Ointment.—Influenza, Colds.—In diseases of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestinable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in cither case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, it receives the Than any other paper, and is read by all classes till the blood is purified and Nature consummates the cure, gradually restoring atrength and vital nervous power. By persevering in the usual of Holloway's preparations, tone is conferred orthe stomach and frame generally; the duids sare regenerated, morbific matter is expelled, and happy revolution occurs throughout the system.

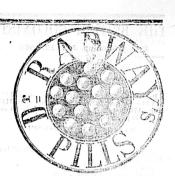

Holloway's Ointment,—Wounds, Scald Burns, and Irritating Sores.—The peculiarly milsoothing, anti-inflammatory power exerted by th
Ointment strongly recommends its use to all pesons who have charge of children. Acciden
will occur in the nursery in spite of the greate
caution and utmost vigilance. The scratch, itburn, or the scald, treated early with this Oinment, assumes no anery aspect, and never lon
tottues the little sufferer, whose very cry exciteach bystander's compassion and pierces the paents heart. Every nurse should consider th
invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to a ore, whatever its character. It conducts to healt
as sure as the compass points to the north.

Holloway's Ointment and Pills—Palpitation, Shartness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are niways severe, and ever po from bad to worse, unless proper means of cute be recorded to. In Holloway's unrivalled Ointment and Pills' the dronsical patient will ever find succour; the present relief derived from the use of these remedies is narvellously quiek, and perseverance in the steady spplication of this noble Cintment invariably results in a lasting and satisfactory cure. The two medicines act with succeeding on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive synaptoms daily decline, till natural health returns. HOLLOWAY' OINTMENT AND PILLS .- Fistu

HOLLOWAY'S OINTMENT AND PILLS-Palpita

HOLLOWAY OINTMENT AND PILLS.—Fistu las, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these securges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if iong allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excorlations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and emoving stitcures, whatever their situation or duration.

Holloway's Ointment and Pills, a certain remedy for diseases of the axin—Ringworm, soury, scrofula, or king's evil, sore heads, and the most inveterite skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Qintment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiffjoints. These medicines operate middly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

57 Maiden Lane, New York. HOLLOWAY'S OLYMBER AND PILLS.—The family medical chest that is farnished with these powerful remedies needs nothing more. Indigestion, general dibliny, liver complaint, eruptions, sore, wounds, tilears, tumiurs, See, are infallibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Olatment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, ane cure is speedly, thorough, and permanent. These medicaments are composed of rare balsams, without the adukture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are effectious.

Holloway's Pills -No family should be without these pills. -Their long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irrequirity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, iver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

HOLOWY'S OINTMENT AND FILLS—Acute Rheumatism. In all severe pains in the joints and miscles, after due foonestation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lesses inflammation, ease pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as mear the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, ressels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment. HOLLOWAY'S OINTMENT AND PILLS-Acute Holloways Pills -General debility, low

Hollowar's Fills.—General debility, low apirits, and nervous irritation, are the contequences of dyspepsia or indigestion. The Fills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give atrength to the whole system. Singishness of the body and depression of the mind are succeeded by a cheerfal activity of the physical and mental functions. Indirection is the parent of so many evils, and is zo common, so universal a complaint, that is a great biessing that such a remedy as thi invaluable medicine should have been discovered. No one need long suffer from indigestion with these Fills at and.
